Dear Parents,

Welcome to Glenavy!

Wow, how lucky are we to welcome another new family into our Glenavy community. Jacob and Aaliyah Barros. Welcome to our wonderful school.

Waitaki Rural Schools BP Technology Challenge

This week the whole school attended the Waitaki Rural Schools BP Technology Challenge held in Duntroon and Kurow. Our outstanding students did such a great job and I have to say we definitely have some budding engineers in our school. It was really nice to see how well all the different groups worked together to come up with different creations. There was a lot of thinking outside of the box and problem solving which is what the day is all about.

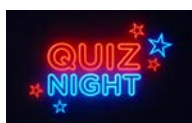

NYLD

Last Friday the year 8's attended the Nationals Young Leaders Day in Dunedin. The day included motivational talks from great New Zealand leaders, question times, videos, music and interactive activities. The speakers consisted of leaders in business, sport, politics, community service, science and the arts. The aim of the day is for the older generation of leaders imparting their wisdom onto the emerging generation of young leaders. The message of the day develops, as students are challenged not only to reach their own personal goals but the goals of those they are leading. Our Year 8's took so much out of the day.

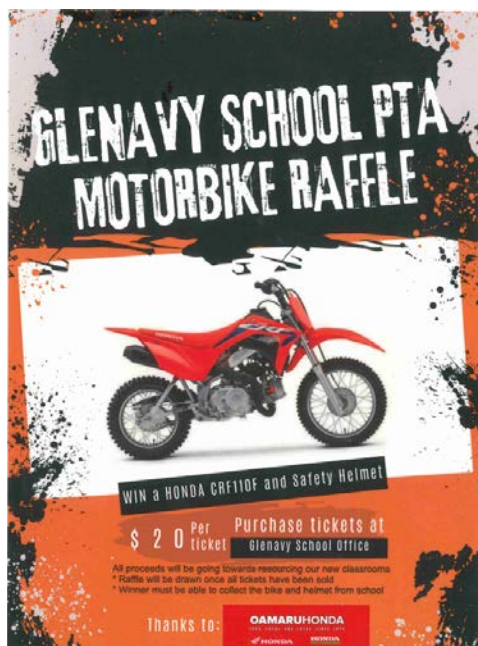

Quiz Night

Remember that we are holding our Quiz night at the Glenavy Hall this Saturday. Come along and test your general knowledge. We all know you have been practising watching the Chase and thinking that you know all of the answers. We have been promised that the questions are not as hard as last year, which is great for us teachers as we didn't do very well last year.

PTA Motorbike raffle

Make sure you get into the draw to win a **Honda CRF110F**. Tickets are \$20 and are available at the school office.

The CRF110F features a Keihin electronic fuel-injection system that's tuned for linear power delivery and precise throttle response. The four-speed, clutchless transmission makes for easy take-offs and shifting that quickly become comfortable for every rider. 97mm of rear-suspension travel and an extra seat-foam thickness (without increasing overall seat height) mean comfort whether sitting or standing.

In true Honda style, the CRF110F delivers legendary build quality and reliability, so the bike dependably fires up every time the starter button is pressed and does not stop until the tank runs dry—and when that moment is looming, the FI system provides a low-fuel warning light.

A big benefit for the young rider's "factory mechanic" is that the fuel-injection system eliminates the possibility of carburettor jets clogging with fuel residue if the motorcycle sits for an extended period—and reduced maintenance means more family time on the trail or track.

I hope you have a wonderful long weekend.

Regards
Steve Ross
