Foxton Primary Strategic Planning 2024 - 2025

Vision/ Mission

He Kura Ate Raukawa
Providing a high quality, modern immersion and bilingual kura

Writing a new mission statement (What? Who? How?)

Our mission at Foxton Primary School is to provide a well balanced immersion and bi lingual education with imagination, creativity and innovation.

Foxton Primary School brings originality and ingenuity to children by providing a balanced immersion and bi lingual kura.

Foxton Primary School offers a unique educational experience for all tamariki, by providing a quality total immersion and bilingual education.

Foxton Primary School is dedicated to the highest quality of education delivered with imagination, originality and ingenuity

Our mission is to create lifelong learning pathways for the children of Foxton Primary. By providing a quality immersion and bilingual modern learning environment our tamariki will intently inherit a balanced and well grounded education.

Our mission is to create confident, self motivated and engaged learners for their community. By providing a quality immersion and bilingual education. Our tamariki's learning experiences, by nurturing and fostering good habits will ensure they are lifelong learners.

Activity 1

(Review the vision)

What does this mean to us?

High Quality Bilingual	Modern Kura
Qualified, experienced staff Children are speaking te reo (Rumaki) Reo is normalized English exposure for all students Latest language resources Latest, up to date language PLD for staff Equal opportunities Rumaki are confident in both languages Making connections with other kura that are similar	Every child has a device Wifi to all areas of kura New modern buildings New learning spaces, more creative, that cater for learning styles indoor/outdoor flow Having the facilities at school like science, art, technology, cooking Community projects Exposing the tamariki to different professions & professionals

Activity 2

Get some ideas (How do we meet the vision/ mission statement?)

Ideas for quality total immersion and bi-lingual education

Provide quality literacy programmes in all classes
Send staff to wananga/kura reo - provide training to upskill staff.
Contact TWOR/TWOA to get more PLD for staff
Experienced staff share their literacy knowledge with their colleagues
Mentoring/coaching within the school environment
English literacy programmes/ alternative language learning opportunities for Rumaki students.
Set up a Yr 7 & 8 English learning session for the Rumaki class
Research & trial latest learning/teaching approaches for bilingual schools
Set up a tuakana/teina working relationship with other kura (that share the same kaupapa, ideas).Identify other kura which have the same values as ours.
Take a leading role in our Community of Learning in normalizing
Te Reo Maori
Have a closer working relationship with Manawatu College.
Creating benchmarks in each class so students and staff are aspiring to the long-term development plan of Te Reo Maori.
Utilize latest language resources - publish e-books, create an online library
Attracting & retaining experienced literacy/bilingual staff to work at our kura
Normalise te reo in the community by giving tasks for whanau to do through weekly newsletters with a reward system where children can earn points if tasks are met.

Ideas for modern kura

Attracting & retaining experienced curriculum staff to work at our kura
Working alongside the M.O.E to update/redesign classroom spaces.
Gather student/whanau voices around learning areas & classroom spaces.
Research modern learning & teaching styles, trial these with an inquiry cycle that includes identifying needs, setting goals, developing actions and reflecting on practise.
Implement community based learning where students connect to what is being taught in schools to their surrounding communities, including local institutions, history, literature, cultural heritage, and natural environments.
Implement project based learning which students learn by actively engaging in real-world and personally meaningful projects
Integrate the new technology curriculum with school programmes
Develop science programmes that nurture natural curiosity & exploration of the child's world.
I would like to see a soundproof room where children can access music instruments or quiet time.
Sheltered areas outside that you can read a book or play a game.
Have a school wide pepeha template that adjusts as they progress and put a basic 1 in our enrolment packs to get whanau involvement.
Have a display area in the new office area for our trophies and achievements and a tv playing our photos and digital art's entries
Engage with whanau by having evening classes of Te Reo Maori. Te Atarangi.

Activity 3
Consult with the whanau about these ideas by creating & sharing a survey (google forms) where they prioritize the ideas. Collate the data and write new strategic/annual goals.

Whanau Survey

Strategic Goals (x3)

Annual Plan
(What? How? Who? When? Cost?)
