

ŌTOROHANGA COLLEGE

WEEKLY HIGHLIGHTS

Semester One, Week Three - Monday 13th February - Friday 17th February 2023

MATHS FACULTY

Our Junior and Level 1 students are focusing on Statistics for the first term. Understanding statistics, how they are created and what they mean, will give our tamariki the ability to critically analyse reports, news items and social media, an increasingly important skill. Year 12 Health students visited a Year 11 Maths class with a questionnaire to gather statistics about the popularity of different sports in the College. This practical example of statistics in action will help inform decisions made around sport in the College and is key to a Level 2 Health assessment.

ROD BARNETT VISIT

The Student Leadership Team, staff and members of the community met with Rod Barnett who is an award winning internationally recognised landscape architect. Powerful discussions took place with regards to redesigning and enhancing the College environment. We look forward to Rod returning to the College with sketches reflective of the ideas shared with him.

Empowering learners to succeed

HOUSEWARMING

On Wednesday all students and staff went to the Otorohanga Memorial Pool Complex for our inaugural Housewarming event. The purpose was to give both students and staff time to get to know each other and build whakawhanaungatanga within each House.

There was a free sausage sizzle run by AIA Catering and some staff members. Student Leaders showed excellent leadership skills throughout the event and pool staff along with our staff members were amazing supervisors.

We are truly grateful and fortunate to be able to have had this event when many areas are still suffering and trying to rebuild from the effects of Cyclone Gabrielle.
