

# ŌTOROHANGA COLLEGE

## WEEKLY HIGHLIGHTS

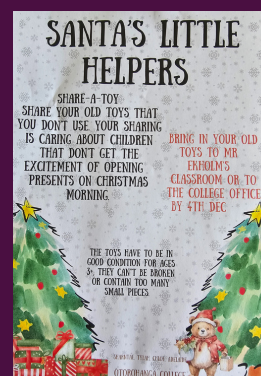

Semester Two, Week Eighteen - Monday 27th - Friday 1st December 2023

### SOCIAL SCIENCES FACULTY

Juniors have been busy creating their social action projects. This is a project where they can work in pairs or groups. Groups have created a social action that aligns with their passion. For example, animal rights, global warming awareness or supporting those that are less fortunate. We had a group of students head down to the Kiwi House to interview Jo Russell about animal welfare and look at the amazing things that the Kiwi House does to support our kararehe. One group is organising a toy drive, which is a project that will be gifting toys for tamariki at Christmas.

Events Planner, our Junior Module, completed their first event and hosted their water slide on College grounds. This was a blast! Students have requested another water slide event. We would like to thank the Wilson family for providing resources.

Today a large group of students are heading to the Waikato Museum to visit the whareniui Harikoa. This exhibition is an opportunity for our students to get up close to view the crocheted neon whareniui. Photo with Lissi and Rudi the artists.

### PATHWAYS NEWS

A small group of enthusiastic Year 10 taurira spent Thursday touring the premises of The Lines Company in Te Kūiti. Through workshops and presentations they learnt about the critical, but exciting mahi of maintaining our electricity distribution network. Students were also introduced to the variety of career opportunities at TLC, including engineers, line mechanics, electricians, accountants and project managers.

## Empowering learners to succeed
