Our tamariki have enjoyed a great day out at Naughty Wasters. They participated in three activities, all using materials that would otherwise go in to the bin. In the Maker Space they were challenged to build a track for a car, outside they were given the opportunity for some free play using a range of materials and thirdly they were challenged to use cardboard to make a shelter using 'cardboard construction tools'.

It was great to hear one of the leaders comment on the creativity of our children and what great problem solvers they were.

Thank you to all our whānau who joined us, without your help such trips could not happen. It was great to see everyone getting involved - it certainly seemed we are never too old to play!
